## **NO OTHER MAGNET EVEN COMES CLOSE!**

Introducing A Line Of Products Based On A Newly Patented Technology That Creates The Lightest, Safest, Most Powerful Switchable Magnets Ever Invented!

- The First Multi-Pole Magnet Creating The Highest Power-To-Weight Ever Seen!
- Incredibly Compact Magnetic Field To Be More Effective On Even Very Thin Metals
- Finally A Magnet You Can Weld Near Without Affecting Your Arc
- Easy On Off Activation Without Risk Of Injury Or RSI's
- Hardened Steel Base For Long Life
- TiN Coating For Less Maintenance And Better Holding Force In Shear

### **The MX-750 Base Magnet**

**41100**

- Up To 750 Lbs. Of Holding Force
- Low Profile Design
- Pre-Tapped Hole For Easy Integration
- Hundreds Of Uses Around The Shop

### **The MX-750 Base Magnet Pipe**

**41100.R**

- Up To 750 Lbs. Of Holding Force
- V-Groove Base for use on Pipe and Flat steel

### **The MX-750 HandLifter**

**41100.H**

- One Of The Greatest Safety Devices You Can Buy
- No More Cut And Smashed Fingers
- Incredible 10:1 Safety Factor
- Easy On/Off-Safe And Ergonomic
- A Must If You Have A Burn Table!
- Rated for Hand Lifting up to 66 lbs.

### **The MX-750 HandLifter Pipe 41100.H.R**

- One Of The Greatest Safety Devices You Can Buy
- V-Groove Bottom for Handling Pipe and Flat steel
- Rated for Hand Lifting up to 66 lbs.

### **The MX-750 Toggle Clamp 41100.TG**

- Easy clamping in any location
- No need for an edge
- Like having a second employee helping you
- Eliminates tacks and scars

### **The MX-750 C-Clamp 41100.CL**

- Easy clamping in any location
- No need for an edge
- Like having a second employee helping you
- Eliminates tacks and scars

### **The MX-750 Adjustable Angle 41100.A**

- Like Having A Second Employee Helping!
- Holds Any Angle From 0-90 Degrees
- Securely Holds Even Heavy Loads
- Detents For Common Angles
- Easy Adjustability With Ratcheting

### **The MX-750 Fixed 90° Angle 41100.F**

- Extremely rugged design with ½" thick sideplates
- Holds securely at precise 90°
- Securely Holds Even Heavy Loads

### The MX-1500 Base Magnet 41200

- Up To 1500 Lbs. Of Holding Force on 3/8" thick steel!
- Low Profile Design
- Pre-Tapped Hole For Easy Integration
- Hundreds Of Uses Around The Shop
- Weighs less than 6 lbs!

### The MX-1500 Base Magnet Pipe 41200.R

- Up To 1500 Lbs. Of Holding Force
- Low Profile Design
- Pre-Tapped Hole For Easy Integration
- Hundreds Of Uses Around The Shop

### The MXD-2.0 MagDrill 18851.110

- 2" x 2" rated Magnetic Drill Press
- Lightweight and easy to handle
- Works on thin metal and with limited contact
- Safety Sensor reads the actual holding force for safety
- 2-speed gearbox for versatility
- Will not fall off or helicopter when the power goes out

### The MXD-1.50 MagDrill 18801.110

- 1-1/2" x 2" rated Magnetic Drill Press
- Lightweight and easy to handle
- Works on thin metal and with limited contact
- Will not fall off or helicopter when the power goes out
- Safety Sensor reads the actual holding force for safety

## The MX-V Drill Stand 18343.US

- **Safety For Wrists And Hands** when the drill bit binds up
- **Overhead And Horizontal Drilling** are now easy and effortless
- **Securely Holds On To Even Thin Steel** down to .080" thick
- **Exceptional Holding Power** on limited contact, painted and rusty steel
- **Drilling On A Ladder** is now safe and easy
- **Accurate 90° Holes** are now fast and easy to set up and drill
- **Easily Tap Holes** at 90 degrees
- **Lightweight** and extremely portable
- **More Accurate** round holes
- **Faster Drilling** with a 10X advantage without using your shoulder / body
- **Longer Drill Bit Life** due to less spinning of the drill bit
- **Easy Through Holes** for accurate bolt-through!
- **Easily Counterbore, Chamfer, Countersink, Ream** and more!
